### CITIZENS REMINDED TO MOW EASEMENTS AND RIGHTS OF WAY

Citizens are reminded that the grass between the sidewalk and the street is the property owner's responsibility to mow. A utility easement in that area of your property simply means that your deed allows the city and/or other utilities to access that property in the event of necessary repairs to their lines.

When the city needs to access water and sewer lines in front of your home, the City will repair any damage that may result from accessing utility lines. However, the City is not responsible for mowing the easement.

Keeping the easements mowed next to the road gives a clear view of the roadway for motorists. We appreciate your cooperation in the matter.

### PAPERLESS BILLING

**You can now sign up to receive emailed notifications that your utility bill is ready to be viewed and still see the newsletter each month also!**

Each month when utility bills are posted you will receive an email providing a link to log into your account. You can view past water usage, billing history, print, and pay the bill all in a matter of seconds. Going paperless alerts you days before you will receive the statement in the mail and will also contain a link to the digital newsletter.

### WATER QUALITY REPORT

The 2020 City of Vine Grove Annual Water Quality report is available. This report contains important information about your drinking water.
